PRICE, FIVE CENTS.

THE POULTRY SHOW.

THE AWARDED COMMITTEE IS NOW MAKING ITS REPORT.

Many visitors from a distance—School children Admitted Free To-Day.

The scoring committee at the poultry exhibit is now getting down to hard work and the blue ribbons are being promptly tied on to the coops of the winners. The work has been quite difficult as the chickens are numerous and in every instance were extremely fine, causing the judges to "split hairs" to come to a just decision.

To-day from 4 to 9 p. m. all the children in the public schools under 15 years of age will again be admitted free of charge. This enables the little ones to witness something in which all of them are interested and which they will long remember.

The attendance has been comparatively good and to-day there are many visitors from Kansas City and other points.

The judges, Mes. Mrs. C. A. Emery, of Carthage, and Thomas Hewes, of Trenton, have made the following awards in the single-comb brown leghorns:

George Walker, larceny, second offense, plead not guilty; case set for Saturday.

THE STRIKE.

Its Extent Not Yet Known by Any of the Officers.

CHICAGO, Dec. 8.—The extent of the strike ordered for 10 o'clock this morning by the telegraph operators in the employ of the Rock Island system, is not yet known by either Chief Ramsey or General Manager St. John.

Some seem to think that not more than fifty of the operators, and those at small stations in Kansas and the Indian territory, will obey the order, but Chief Ramsey says that 500 out of the 675 operators in the employ of the road will go out if necessary.

A BIG FIRE.

Cleveland the Scene of a Disastrous Conflagration.

CLEVELAND, Ohio, Dec. 8.—A disastrous conflagration is now going on in this city. The city armory and police station have been burned and the fire is spreading rapidly, being aided by high winds.

AN AWFUL MURDER.

An Insane Man Kills His Own Son.

CHICAGO, Ill., Dec. 8.—Frank Egger, thought to be insane, shot and killed his thirteen-year-old son, Charles, and attempted to shoot his wife this morning. Egger has been vainly seeking for employment for some time, and finding none became despondent and lost his mind by brooding over his troubles.

RETURNED TO JUSTICE.

A Famous Kansas City Embezzler Passes Through Sedalia—Spending a Fortnight in Europe.

On Missouri Pacific passenger train No. 1 from the east yesterday afternoon was a man whom any one would have passed by without giving him any particular notice; of slender build, a thin face smoothly shaven with the exception of a short, dark brown mustache, and a pair of grey eyes that indicated shrewdness rather than intelligence, the observer would have been surprised when told that this was Augustus T. Kerr who, together with a partner in crime, embezzled \$25,000 from the Lombard Investment Co., of Kansas City, and fled to Europe, his accomplice, however, going to Mexico, where he was caught. Kerr was dressed in a rather seedy looking suit of clothes, but flashed a large diamond from a soiled short front.

In charge of J. W. Bowman, of Chicago, inspector of the American Surety Co., assisted by H. B. McGowan, of Kansas City, Kerr was on his return from Liverpool where he was arrested early last fall upon information furnished by a cablegram from this country. Detective Bowman left for England about the 16th of last September. Upon his arrival, a hotly contested legal fight ensued over the extradition papers and Kerr was represented by three of the most brilliant barristers in the British empire. Kerr arrived in New York on the steamship Aurania at noon last Monday, after a stormy passage, and was sick most of the time. He was non-communative when seen by a DEMOCRAT reporter, but has signified his intention of making a big legal fight for his freedom.

Kerr went to Italy and southern France where, enraptured in its dreams and its voluptuous pleasures, he spent money with the lavish hand of a Monte Cristo. His wife is still in Europe. To-day he is, perhaps, the most miserable man on earth; he has awakened from his dreams to find a hideous nightmare hanging over him and the prison doors yawning for his entrance.

Snow in the Warsaw Hills.

The narrow gauge train which arrived from Warsaw last evening was covered with drifted snow, making quite a contrast to the thin coating that fell in this city.

News About Different Roads, Employers and Employees.

General Superintendent J. J. Frey and party arrived from Parsons in special car No. 49 last evening.

A. H. Shreve, an old Sedalian, now braking on the Wabash, arrived in the city yesterday from Danville, Ill.

Samuel Irvin, who succeeds Robert Walker as master carbuilder of the M., K. & T., came in from St. Louis yesterday afternoon and passed on to Parsons last evening.

Nevada In Trouble.

Referring to the statement going the rounds of the press with regard to the contemplated removal to Rich Hill from this point, of the division superintendent's and dispatcher's offices, Division Superintendent Keller said to a Nevada Mail reporter:

"There is nothing in it. No such orders have been received here. It is true the matter has been talked of, and indeed it must be admitted that things seem to tend in that direction, but then that sort of talk has been made pretty much every year since the dispatcher's office was established in Nevada.

"Our road does a large business north of Rich Hill and for that, as well as other reasons, that point is a desirable one for the location of this office. This has given rise to the rumors of a change but there is not likely to be any change. As I have said, I have received no orders to that effect and I do not expect any such orders—at all events, not at this time."

Compound Engines for "Katy."

The employees of the M., K. & T. are daily expecting another new engine to arrive in the city, and it will be similar to those which have arrived during the last few months. It is also reported that two compound engines from different factories are also expected to arrive here in the near future to be used as an experiment on the Sedalia and Hannibal division of the "Katy." Between 70 and 80 engines have been received at the shops in this city during the past few months.—Hannibal Journal.

Big Cotton Traffic.

Every car available is being used to its utmost capacity by the M., K. & T. railway in handling the cotton crop. At one time in the yards today there were counted ninety-five cars loaded with the fleecy staple. Most of it came from other cities adjacent to Denison, and it will be compressed by the Denison compress.—Denison Herald.

Working for Good Roads.

Judge W. R. McIlvane, of Lebanon, Mo., Levi Chubbuck, of Columbia, and Mr. Irvin, the committee appointed by the governor, were in the city this morning, for the purpose of arousing interest in good macadam roads throughout the state. There will be an effort to secure special legislation in this matter at the next meeting of the legislature.

The committee are visiting different parts of the state urging representatives from the different counties to be present at the state road convention which meets in Sedalia on January 19th and 20th.

V. M. C. A. To-night.

There will be a Song and Gospel service at the V. M. C. A. to-night from 8:30 to 9:30. An address will be given by Mr. Laslett, of Carthage. A cordial invitation is extended to every man to be present.

Jumped the Track.

Missouri Pacific switch engine, No. 914, and four cars jumped the track just east of the depot last evening and considerable difficulty was had in getting them on again.

How a St. Louis Burglar Came Near Losing His Life—Lawyer Napton in the City.

Col. Chas. M. Napton, one of the most prominent lawyers of St. Louis, was in the city this morning on his way home from a visit to his brother, James S. Napton, of Houstonia.

Col. Napton is a prominent Elk and knows how to enjoy the good things of life better, perhaps, than any other man in the state. He is much interested in politics, and predicts that James Bannerman will be the next mayor of St. Louis.

There are already about half a dozen candidates for the nomination in the field and the contest will be a lively one. Col. Napton stated that the reign of terror in St. Louis caused by highwaymen and burglars was unabated. Citizens are afraid to go on the street at night and, if compelled to do so, never fail to take the middle of the street; in fact, so many people are walking in the street, that some have concluded the now deserted sidewalks to be safer. A few nights ago a young married man was awakened from his slumbers by a burglar in a peculiar way. Among the presents he had received was a fine music box. The burglar, while

Furnished Horses.

Two ponies attached to an express wagon and looking as if they had not had a square meal since they were colts, caused their driver considerable trouble at the market house trough this morning. One of them fell to the ground, apparently from exhaustion, and was with great difficulty placed on its feet again.

KANSAS CITY is to have a "Wind Engine company." A great many "wind" companies have been organized in the city by the Kaw.

SENATOR VEST is getting in his work in the senate. He is a little off on the question of an extra session, but the "Little Giant" is about the ablest man in the senate, all the same, and Missouri is proud of him.

THE KANSAS CITY MAIL remarks: "A man that will steal an office will steal anything of value." Of course he will! The man who will lie and slander in politics will lie and slander in business. An honest man is honest in all things.

A LIFE insurance company wants Senator Hill's service, but he is "engaged" for the present. The people of the country need his work in the senate and the democracy appreciates what he has done in the cause of good government.

You can tell the real christian by the way he don't abuse and vilify other people. If he has not charity in his breast he is no christian, no matter his name or denomination; if he love not his neighbor he is no christian, though he preach and pray until he grows gray.

THE price of cotton has gone up three cents per pound and the wages of the operatives in cotton factories have been increased five per cent. since the election. That is the way a "free trade" victory "ruins" the working man. Give us more of that kind of "ruin."

A "JERUSALEM" club has been organized at Slater by Col. J. T. Price, the distinguished gentleman who ran against Victoria Woodhull for president of the United States. There is no politics in the organization, but it is intended to be educational only and will seek to propagate the colonel's ideas of the duty of man to man in organized society.

THE people of the United States believe silver should be freely coined at the mints—not purchased by the government. They hold that if silver is a money metal it should be coined as money; if it is not a money metal the government has no business buying it. The silver storage bill is the same character of legislation as the sub-treasury measure advocated by the third party.

THE democratic United States senators held a caucus in Washington and decided to make an earnest effort to secure the admission of Arizona and New Mexico to the sisterhood of states. They will also assist and advise the democrats in the various states where there are contests that leave the legislatures in doubt, and will insist that the popular verdict delivered on November 8th shall be respected.

HON. W. O. L. JEWETT, editor of the Shelby Democrat, was in

the city to-day. Col. Jewett has been twice a member of the legislature from Shelby county, and made a faithful representative. He was chairman of the committee on insurance and helped revise the insurance law, after having investigated the subject fully. A number of Col. Jewett's friends are urging him to become an applicant for appointment as insurance commissioner, a position for which he is admirably fitted. The press of the state will be a unit for him if he concludes to ask for the position.

THE GOLDEN RULE.

There is a world of wisdom in the golden rule, and if it should be made the guide of all men's lives we would have no courts or prisons, no police or armies, no poverty or suffering—there would be peace, prosperity and happiness on earth and good will among men.

It is perhaps too much to expect that poor frail humanity shall succeed in living up fully and completely to the rule; we may not expect that every man will at all times do exactly as he would wish others to do to him under similar circumstances.

But all intelligent men can cultivate a regard and respect for the rights, privileges and opinions of others that will go a long way toward maintaining peace and fraternal feeling among men who are necessarily associated together.

In every community in a free country like ours, men differ upon questions of politics and religion; good men there are in all political and church organizations, and bad ones creep in in spite of the most rigid rules defining qualifications for membership.

There is truth and error, earnestness and hypocrisy, frankness and deceit, good and bad in all human organizations.

Where twenty thousand people of various nationalities and different religious and political beliefs are associated together as citizens of the same community, brought into close business and social relations, good order, peace and prosperity can only be maintained by cultivating such a feeling of respect for the opinions of others as will lead us to concede them the same right to their beliefs that we have to ours.

Hence, the man who goes about teaching or preaching that those of any particular party or organization are thieves and rascals, liars and hypocrites, rakes and libertines, is doing a work that will result in evil and pursuing a course that should be discouraged and rebuked by every good citizen.

The day for either political or religious intolerance has passed in this country, and the man who seeks to revive it is an enemy to good order and the peace of the community.

Argument to correct error is legitimate. Wholesale denunciation, vile misrepresentation and heartless attacks upon the virtue of any particular organization are unworthy to be tolerated in a decent community.

The true spirit of freedom manifests itself in a cheerful recognition of the rights of others; the true spirit of christianity is seen in the kind, gentle, loving, charitable utterances of those who teach it.

In the absence of a universal effort to live up to the golden rule, any community will be benefitted by a rigid adherence to the sensible rule of decent regard for the rights and privileges of others.

THE republican managers in Kansas are charged with having attempted to capture the legislature by fraud. Judge C. G. Foster, of the United States district court, refuses to have any hand in the matter and writes the following manly letter to the republican governor: "I have been 'standing up for Kansas' to the best of my ability, but when it comes to stealing members of the legislature from a political opponent you must excuse me if I sit down."

JIM OWENS, of Washington, is the happiest postmaster in Missouri and don't care whether school keeps or not. When Jim votes he votes his sentiments, but when he bets his business. His judgment told him that Harrison was doomed to defeat and so he bet two years' salary that Cleveland would be elected. When he goes out of office he will have a

right nice little bank account to solace him for the loss of a four years' job.

Nora Mahree.

Sidney R. Ellis' scenic production of "Nora Mahree" will be seen here Saturday, December 10. This great romantic play has been received everywhere with unanimous praise, the

press and people with one voice stamping it the success of the season. Its construction is of the most superb stage craft, and its subject is, and will always remain, deeply sympathetic to the human heart. The arrangement of the play is exquisite, the dialogue pointed and witty, the situation full of interest and dramatic force, and, above all, nothing is overdone—nothing in questionable taste. An air of refinement pervades the entire work, and it will be a welcome addition to successful Irish drama.

JUDGE SHERWOOD.

A Man Whose Public Service is Written in the Jurisprudence of the State.

From the Jefferson City Tribune: Missourians are justly proud of the merited distinction which has been attained by many of the public men and it is a pleasure to give testimony to their worth and the value of their public services, whether rendered in the discharge of important duties in the executive, legislative or judicial branches of the government. Among those it is only our purpose here to speak of one—Judge Thomas A. Sherwood, chief of the supreme court—whose life and character and public career are indelibly written in the jurisprudence of this state.

He was born in Eatonton, Ga., June 2, 1834. His father, Rev. Dr. Adiel Sherwood, married Miss Emma C. Heriot, of Charleston, S. C., the mother of the subject of this sketch. Dr. Sherwood was president of Shurtleff college, Upper Alton, Illinois, and it was here and at the Mercer university of Georgia that the jurist was educated and acquired those habits of close application and the foundation for that profound and varied store of learning which characterize and enrich his opinions. He graduated at the Cincinnati Law school in 1857 and was admitted to the bar in Mississippi county, in this state, in the same year. The following year he removed to Southwest Missouri and began the practice of his profession. Here, although confronted by some of the ablest lawyers in the state, he soon gained an enviable reputation as a practitioner and a numerous clientele. He has been three times nominated and elected judge of the supreme court of this state—in 1872, 1882 and 1892—each for a term of ten years, or thirty years in all, and is the only judge of that court, who, nominated since the war, has been renominated.

At the recent election, notwithstanding he encountered violent opposition from certain quarters, he was triumphantly re-elected, receiving 1,116 more votes than was received by the head of the state ticket. At the end of the present month he will have served twenty years continuously on the supreme bench, which is the longest service, with two exceptions, (that of Judge McGirk, who served from 1821 to 1841, and Judge Tompkins, who served from 1824 to 1845), of any one since the organization of the court, and at the end of his next term his membership of that court will have exceeded in length by nine years that of any other. The opinions of Judge Sherwood are found in fifty-seven volumes of the supreme court reports (51 to 108) and abound with profound learning, exhaustless research, independence, clearness and fearlessness of expression, and many of his most important ones rank among the ablest expositions of the principles upon which rests the superstructure of our jurisprudence. If in the life and public services of this jurist there is any one trait which predominates and is exemplified by the record of his written opinions, it is the courage with which he has expressed and maintained his views of the law as he honestly and conscientiously interpreted it. When failing to concur in the conclusion reached by a majority of the court, so ably has he led in his dissent that 99 per cent. of his dissenting opinions have since become the opinions of the court. The intellectual grasp and power of analysis with which he deals with a question, the boldness and inflexible honesty in expressing his views has attracted to him the admiration of the bar of the state, and not infrequently has his name been mentioned for higher judicial honors, in which the field of his usefulness and the light of

his intellect might have larger scope. This much can be said of him in this connection, if he was not "born to be the chief justice of any country into which Providence should have cast him," he is all the more deserving, for by indomitable energy and intense application have been acquired in a preeminent degree those qualities which fit him for this most exalted position.

HE IS RIGHT.

Senator Yeater Thinks United States Senators Should be Elected by the People.

The Republic publishes the following from Senator Charles E. Yeater in answer to an inquiry as to his preference for United States senators:

"As I understand the political status, Senator Cockrell will be the only candidate before the caucus, and I therefore expect to vote for him. Should there be two or more candidates, I should endeavor to ascertain and reflect the choice and sentiment of a majority of the democratic voters of my district, for the reason that I believe United States senators should be chosen directly by the people, and such action on my part would be the nearest approximation to that method."

A Rumored Marriage.

The DEMOCRAT has it upon good authority that Roland Hughes, of the general offices at Parsons, is soon to be married to one of Parsons' most charming young ladies. It is amusing to see how these would-be old bachelors change their minds when some pure, devoted woman thaws out "the winter of their discontent." The DEMOCRAT joins with his many friends in Sedalia in hoping that the happy news is true and that fortune will smile upon Roland and the woman of his choice.

A Shower of Silver Stars.

Last evening a slight flurry of snow covered the ground with what at first appeared to be ordinary snow flakes, but upon closer inspection proved to be six pointed stars of snow. The sight was a beautiful one and, as a ragged urchin said, heaven seemed to be losing its stars. The crystal formation of snow is a most interesting phenomena, but the crystals are most frequently of many shapes.

American Cholera.

From the Daily Reville, Whatcom, Wash. "T. C. Burnett, the democratic candidate for sheriff, was taken violently ill at Clearbrook. He had all the symptoms of Asiatic cholera, and for an hour or two it was feared he would die. They finally gave him a dose of Chamberlain's Colic, Cholera and Diarrhea Remedy, which revived him until a physician arrived." That is precisely what the manufacturers of that medicine recommend for cholera. Send for a physician but give their medicine until the physician arrives. If cholera becomes prevalent in this country next summer this preparation will be in great demand because it can always be depended upon. For sale by Aug. Fleischmann, druggist.

OPERATORS STRIKE.

ROCK ISLAND TELEGRAPHERS
CALLED OUT.

THE ENTIRE SYSTEM INVOLVED.

It Is Likely That Other Roads May Be
Affected, and Eventually the Entire
Railway System of the West—The
Company Calls the Order to
Strike a Bluff—All Peace
Negotiations Fail.

CHICAGO, Dec. 8.—The telegraph
operators employed on the Rock Is-
land road will be called out to-day at
every office from Chicago to the re-
mote point on the company's line.

This decision was reached at a meet-
ing of the committee representing the
men held at the Palmer house last
night, and the decision was ratified by
Grand Chief D. G. Ramsey.

The number of operators employed
on the road is 675. Every one of them
belongs to the Order of Railway
Telegraphers, and every one of them
will do the bidding of the chief. It is
possible, too, that a conflict may arise
between the operators and their em-
ployers on other lines, though the Or-
der of Railway Telegraphers declares its
intention to prevent any such oc-
currence.

The committee has also decided to
call out the operators on the Burling-
ton, Cedar Rapids and Northern road,
for reasons given in the following or-
der, which was sent to the men on
both roads:

CHICAGO, Dec. 8.—Rock Island officials
positively refuse to treat with us as your
committee has requested either the em-
ployes or order, although 575 out of 635 on
the system have requested us to do so.
By a unanimous vote a strike
is authorized to take effect
on the Rock Island and Burlington,
Cedar Rapids and Northern at 10 o'clock
Thursday morning, December 8. The
Burlington, Cedar Rapids and Northern
is controlled by the Rock Island and is
urging its operators to secede; furthermore,
it has violated the agreement recently
made.

Stop work, but protect company property
now on hand; remain firm, disregard all
rumors and success will crown us in the
end. L. M. COOKS, Chairman.

Approved: D. G. RAMSEY.

So far as the company is concerned,
its officials declare that they can get a
carload of operators from the Burling-
ton, Cedar Rapids and Northern Com-
pany, and that this carload will arrive
to-day. The members of the company
say it is a bluff.

What the demands or concession are
will be best explained in Mr. Ramsey's
words. He bases his statement upon
the facts supplied him by the com-
mittee: "The operators on the Rock
Island wished to be placed in the same
position as those on other prominent
lines," said Ramsey. "The leading
men among them began gather-
ing information as to the pay their
fellows were receiving, and eventu-
ally appointed a committee to draft
rules to be submitted to the company
for consideration. The committee
called on General Manager St. John
last week, and from time to time the
members were put off on some pre-
tense or other. Yesterday when the
members of the committee called on
Mr. St. John they were asked if they
had a list signed by the majority
of the operators expressing a desire
for the recognition of the organiza-
tion. The members replied that they
would not supply the list; that the re-
quest was altogether unprecedented. Then
Mr. St. John said he would not
treat with them, nor would he treat
with the committee. He would not recognize
the order. So the committee has met and
decided to order a strike. I approve of
its action."

It is reported that the strike will
affect other companies and may
eventually involve all the great
trunk lines.

Killed the Guard and Escaped.

GREENWOOD, Miss., Dec. 8.—A hor-
rible affair occurred last night at A. M.
McLennor's place on the Allahatchie
river. While Alex. Hern, one of the
guards, was putting four convicts in
the cage one of them secreted
himself under the bunk in the hall.
Mr. Hern locked the cage, put the gate
down and went to supper. On his re-
turn the convict shot and killed him,
liberating the other convicts, all of
whom escaped.

Big Claims Allowed.

WASHINGTON, Dec. 8.—The report of
the findings by the court of claims for

their claim of \$4,839,113.75. To Mat
McKay was given \$115,167 on his
claim of \$284,544.42, and to the Potta-
watomie Indians \$104,626 on their
claim of \$963,058.50.

last Saturday, is on its way to Wood-

JAY GOULD'S MILLIONS.

They Will Not Be Scattered for Many
Years to Come.

NEW YORK, Dec. 8.—The following
abstract of the will of the late Jay
Gould was given to the press by Judge
Dillon, the counsel for the executors,
who stated that it was full and com-
plete.

First in the specific legacies there is
given to his sister, Mrs. Northrop, and
her daughters the three lots of ground
in Camden, N. J., on which his sister
lives. There is also a specific bequest
to Mrs. Northrop of \$25,000 and the
further sum of \$2,000 annually to be
paid to her during her life in equal
quarterly payments. To his sisters,
Mrs. Anna G. Hough and Mrs. Eliza-
beth Palen, and to his brother, Abra-
ham Gould, there is given the sum of
\$25,000 each and also the further sum
of \$2,000 annually during their lives,
payable in equal quarterly payments.

To his daughter, Helen M. Gould, he
gives the simple absolute fee house
in which he lived at 579 Fifth Avenue,
and all of the furniture, books, paint-
ings, statuary, silver plate and house-
hold contents therein. To his son
Edwin he gives in fee simple absolute
the house at 1 East Forty-seventh
street, with all the furniture and
household contents therein. To his
daughter he made a specific bequest of
his portrait painted by Herkimer. He
also gives to his daughter Helen until
his youngest child shall arrive of age
the use of his residence at Irvington,
N. J., "Lindhurst," free of taxes, and
all of the furniture, books, paintings
and household contents therein, and
also the sum of \$6,000 per month—
stating that this was done in the ex-
pectation that his minor children,
Anna and Frank J., as well as his son
Howard, would, during the period
above provided for, make their home
with his daughter Helen.

To his namesake and grandson, Jay
Gould, son of George J. Gould, he
gives the sum of \$500,000, to be held
in trust for the said grandson by
George J. Gould.

To his son George J. Gould he makes
a bequest substantially in the follow-
ing words: My beloved son George J.
Gould, having developed a remarkable
business ability and having for twelve
years devoted himself entirely to my
business, and during the past five
years taken entire charge of all my
difficult interests, I hereby fix the
value of his services at \$5,000,000.

He appoints as executors and trust-
ees of his will his sons, George J.
Gould, Edwin Gould and Howard
Gould, and his daughter, Helen M.
Gould, with a provision that in case a
vacancy shall happen by death or oth-
erwise his son, Frank J. Gould, is to
be an executor and trustee when he
shall have reached the age of 21
years, and in case of another vacan-
cy he appoints his daughter,
Anna Gould, to fill such vacancy when
she shall have reached the age of 21
years; no bonds to be required of the
executors and trustees. George J.
Gould and Edwin M. Gould are ap-
pointed guardians of Anna Gould and
Frank J. Gould until their majority.

In a codicil of November 21, 1892, he
says: "The better to protect and con-
serve the values of my properties, it is
my desire, and I do direct and provide,
that the shares of any railway or other
corporation at any time held by my
executors and trustees, or my said
trustees, shall always be held by them
or by their proxies at all corporate
meetings as a unit; and in case my
said executors and trustees do not
concur as to how such stock shall be
voted, then, in view of the fact that
my son, George J. Gould, has had man-
agement of my properties and is
familiar with them, I direct and pro-
vide that in such event his judgment
shall control, and he is hereby author-
ized and empowered to vote the said
shares in person or by proxy in such
manner as his judgment shall dic-
tate."

There is a provision that if any of
his children shall marry without the
consent of a majority of the executors
and trustees then the share allotted to
such child shall be reduced one-half
and the other half of such share shall
be transferred upon such proof in the
same manner as the laws of the state of
New York would take if the testator
had died intestate.

thorities of two countries a long

robbed, who has swindled well
known men in and about Kansas City,
who virtually broke one bank in Can-
ada and blackmailed another, re-

TALKS OF MILLIONS.

REPORT OF SECRETARY OF
THE TREASURY FOSTER.

HOW UNCLE SAM'S FINANCES STAND

The Government's Total Revenues for the
Past Fiscal Year Were \$425,868,259,
and the Total Expenditures, \$415,-
953,806, Leaving a Surplus of
\$9,914,453—Bewildering
Array of Figures.

WASHINGTON, Dec. 8.—The annual
report of the secretary of the treasury
shows that the government revenues
from all sources during the past fiscal
year were \$425,868,259 and the total
expenditures \$415,953,806, leaving a
surplus of \$9,914,453. With the cash
balance, the national bank redemption
fund and a few small items added, this
surplus was \$40,750,468, which was ap-
plied to the redemption of bonds and
the national bank notes. As com-
pared with the fiscal year 1891, the
revenues for 1892 have fallen off \$32,675,-
072. The principal losses were cus-
toms receipts \$12,069,241 and profits on
coinage \$5,681,479, but there was a
gain of \$8,284,323 in internal
revenue receipts and of \$1,993,-
690 in sales of District of Colum-
bia bonds. In the ordinary expendi-
tures, there was a decrease of \$10,-
349,354, which is accounted for by di-
minished payments for discount
banks, refund of excessive customs,
supplies, census, quartermaster's
supplies and interest on the public
debt, the decrease in the last item
alone being \$14,169,019.

During the present fiscal year the
revenues are estimated as follows:
From customs, \$198,000,000; from in-
ternal revenues, \$165,000,000; from
miscellaneous sources, \$20,000,000; from
postal service, \$80,336,350.44; total,
\$463,336,350.44. The expenditures for
the same period are estimated as fol-
lows: For the civil establishment,
\$180,000,000; for the military
establishment, \$149,000,000; for the
naval establishment, \$31,000,000; for
the Indian service, \$4,000,000; for pen-
sions, \$158,000,000; for interest on the
public debt, \$26,000,000; for postal
service, \$80,336,350.44; total, \$461,336,-
350.44. This will leave an estimated
surplus for the year of \$2,000,000. The
available cash balance in the treasury
at the end of the present fiscal
year is stated at \$120,492,377. The
revenues for the fiscal year 1894 are
estimated at \$490,121,365 and the ex-
penditures required \$457,261,335, ex-
clusive of the sinking fund or an esti-
mated surplus of \$32,860,030, which
with the cash balance and gold reserve
will make the available balance \$53,-
852,407, and deducting accrued or
accruing obligations (mail contracts
and redemptions) would leave the
balance \$47,852,407. Chargeable
against this are unexpended river and
harbor and ordinance appropriations
amounting to \$14,000,000 and account-
ing for the sinking fund requirements
amounting to \$48,600,000 beyond
redemptions estimated at \$5,000,-
000.

The estimated receipts are based on
conditions prevailing prior to the late
election. Public opinion having de-
creased a change of policy, particularly
in the tariff laws, the altered condi-
tions resulting therefrom render it im-
possible at the present time to esti-
mate the annual income with any
marked degree of ac-
curacy, and it is impossible
to predict the effect that such pro-
posed radical changes would have
upon the future revenues of the gov-
ernment. The secretary says that he
will not estimate further, but that the
inevitable result of the tariff reduc-
tion agitation will be a falling off in
importations and in revenue the ex-
tent of which no one can measure.

Touching the sinking fund act, the
report states that up to June 30 \$999,-
510.68 more than was required by law
had been credited to the fund. He
recommends the repeal of the act of
March 3, 1891, authorizing the applica-
tion of surplus money to the purchase
or redemption of United States bonds,
in view of the very large decrease in
national debt already effected and the
probable future condition of the na-
tional finances.

Of the gold reserve, the report says
the treasury has difficulty with the
limited amount of cash on hand above
the \$100,000,000 redemption fund, to
keep a sufficient stock of gold, and if
the shipments continue as large as they
have been during the past two years,
the gold in the treasury will be dimi-
nished below the reserve line. The main-
tenance of silver at par has also in-
creased the possible charge upon the
gold reserve, and therefore the secre-
tary suggests that the reserve for the
redemption of government obligations
should be increased to the extent of
at least 20 per cent of the treasury
notes issued or to be issued
under the act of July 4, 1890.

The secretary gives statistics to
show the success of the reciprocity
treaties now in operation and says the
result of reciprocity will be enlarged
markets for agricultural and manu-
facturing products and increased em-
ployment for ships.

On the subject of public buildings,
the secretary says that the expendi-
tures during the year ending Septem-
ber 30, last, were \$7,741,286 and the
outstanding contract liabilities \$2,334,-
098, making a total of \$9,575,694.
From present indications he says
that between this date and the close of
the second session of the Fifty-second
congress, several millions of dollars of
the aggregate amount of the various
balances of appropriations now re-
maining available and aggregating
about \$15,000,000, will be covered by
contract liabilities.

Love Causes a Double Tragedy.

SEATTLE, Wash., Dec. 7.—At 11:30
o'clock last night, Charles Moulton,
aged 32, shot and killed Mrs. Mary S.
Storey, about the same age and a
leader of musical circles, and then put
a bullet through his own brain. He
had long pleaded a hopeless suit for
her hand, and finally threatened to
kill her if she did not yield. Her two
children were asleep in an adjoining
room when the tragedy occurred.

The Champion of Protection Promises to
Make Another Fight.

LIMA, O., Dec. 5.—That Governor
McKinley will lead the Republican
hosts in Ohio next November, is
vouched for by Wilson Edwards, a
prominent Republican, who went to
Columbus for a requisition and was
obliged to see the governor in his
home. The conversation took a politi-
cal hue and issues of the campaign
were discussed.

Said the governor: "I believe that
protection will be the line of battle
the next campaign."
This led Mr. Edwards to pointedly
inquire: "Will you be the Republican
candidate for governor next year?"
"If my own wishes were consulted,"
replied the governor, "I would prefer
a less active part in politics, but if
protection is the issue and my party
wants me, I will lead. I will, if nomi-
nated, do my best to secure election."

WILD WITH RAGE.**A Negro Husband Shoots His Wife and Attempts the Life of a Colored Man.**

A shooting affray occurred on South Ohio street last night at a house just north of the water tower in which two more murders came near being added to the criminal record of the city.

Ed Harris, a colored cripple who walks on two crutches, for the past several days has been in a row with his wife. The two lived with a colored man named Wesley Bates, a hod carrier, who paid the rent of the house while they furnished the other necessities. Harris grew very jealous of Bates and matters culminated yesterday morning by his separating from his wife.

Deputy Constable Harry Hickman, colored, was called in to divide the family effects, which he did to the apparent satisfaction of all.

Harris left the house, but about 7:30 last evening returned to get a china cup and saucer which he claimed to have forgotten. As the story goes, Harris knocked at the door and was denied admission by his wife and Bates. She finally opened the door, when Bates told Harris that he would kill him if he entered. Harris replied by pulling a 32-calibre double action Smith & Wesson revolver and commenced firing at Bates. Two shots were fired, but Bates escaped unharmed, by running into a back room. His wife was shot, but Harris claims that he did not shoot at her, one of the bullets directed at Bates striking her. The ball entered her right arm between the elbow and wrist, making a considerable wound, though not a dangerous one. Harris then disappeared.

Deputy Constable Hickman was called and finally located Harris on North Osage street about 9:30 o'clock. His pistol was taken from him and Harris put in the calaboose, from which he was afterwards let out under guard.

He was taken before Justice Fisher this morning on the charge of felonious assault with intent to kill and his case sent to the grand jury. He was released on a bond of \$400.

A Wonderful Experience.

The awe with which the small boy looks upon a retired mariner is probably due to the marvellous experiences the mariner remembers to have had. An example of this extreme marvellousness came up recently in the course of a conversation between a lad of six and an ex-sea-captain.

"Captain Skaggs, did you ever get your leg bit off by a shark?" asked the boy.

"Did I, sonny?" he replied. "Did I? Well, rather. Dozens of times!"
